

# JENNIFER MARIE

## *You Can Whisper*

---

Those who already know singer/songwriter Jennifer Marie can attest that she's always had a song in her heart, a firm commitment to family, and a strong desire to serve others.

And anyone who's yet to meet this artist, wife, and mother of two daughters is destined to discover an incredibly inspiring vocalist, gifted pianist, and relatable storyteller.

Now, as she releases her new EP, *You Can Whisper*, Jennifer Marie sends a hopeful reminder that when life is at its lowest, even the softest prayer can make a significant difference.

"After having our second daughter, I felt the need to put my writing and music on hold to raise my young family," says Jennifer Marie, who first put her music-writing pen to paper at the age of 15. At the time, as she regretfully laid down her gift of music, she felt like a flame went out in her heart.

But she rekindled that fire during her family's annual vacation in 2020. During the week, sitting alone by the fireplace at a secluded cabin in the Minnesota woods, like a rushing wind, it was very clear to her that it was time to begin writing again.

The collection of songs she began writing at the cabin that evening is featured on her new project, *You Can Whisper*, produced by Sean Hill (Jamie Grace) and Beck Nebel.

With a diverse palette of creative influences, ranging from gospel/CCM greats CeCe Winans, Natalie Grant, Nichole Nordeman, and Kari Jobe, to pop stars like Alicia Keys, Lauryn Hill, Sarah McLachlan, Jewel, and Sara Bareilles, plus a lifelong love for classic Disney, Jennifer Marie's potential to reach within and beyond the church walls is immediately apparent from the moment her magnetic voice and passionate playing delivers a series of deeply personal lyrics.

While each song on the EP has a different theme of love, hope, or longing, the overarching messages of this project are rooted in both fresh beginnings and finding one's greatest purpose. Given its ability to ever-so-eloquently touch on all of those themes, the title track was a natural place to start as the lead single, having already hit the No. 1 spot on the weekly Christian Radio Chart.

"I have been a believer most of my life, but I can still easily get caught up and forget to prioritize God in my day-to-day activities," says Jennifer Marie of the song's subject matter. "The song, 'You Can Whisper,' was written on a scratch piece of paper as I sat alone by the fire at the cabin back in 2020, returning to this calling on my life: to go back to my love of writing music after several years of walking in the wilderness of life."

Besides that thought-provoking ballad, which showcases her gentle, gorgeous vocals, the track listing includes the momentum-building anthem cry, "Breathe A Miracle," which paves the way for the just-as-pristinely-produced "Keep It From Me." "Keep It From Me" is a contemporary pop gem with a contemplative tone, and lyrics that focus on how God is ultimately in control of everything in our lives.

There's also the angelic delivery and breezy rhythms of the unwaveringly optimistic "Good Will Come," the piano-centered beauty of the encouraging "Hold On," alongside the chilling, ethereal closer, "Deep Waters," as a rejuvenating prayer.

In "Keep It From Me," Jennifer Marie reveals she isn't afraid to tackle the toughest topics with honesty and authenticity. "'Keep It From Me' was written directly from my feelings of frustration that something wasn't being taken away that was painful in my life, while at the same time, trusting there was a bigger plan; trusting that sometime I may have wanted so dearly was never meant for me," she remembers. "Those are really hard lessons to learn."

"'Hold On' was written for the person grappling with life when the bottom has fallen out," continues Jennifer Marie. "I wrote this song for a person very near to my heart who had just lost a child, and it was difficult for me to know how to help her. When a couple endures the loss of a child, their pain feels endless. How can I plead for someone to hold on to hope when life can be so painful? As Jennifer Marie keeps moving forward in her calling, live audiences and online followers alike are joining her on the journey and embracing her heartfelt musical expressions.

"Life can be really hard, but it can also be soul fulfilling." Whether you are trying to find your purpose in life or need a way to connect your emotions to words, Jennifer's authentic voice and heartfelt lyrics will be your guide.

When words fail, music speaks, and Jennifer Marie writes music in a way that connects us all.

*Production: Sean Hill, Beck Nebel*

*Co-write: Sean Hill (You Can Whisper single)*

*Instrumentation: Jennifer Marie, Sean Hill, Beck Nebel, JD Lenick, Henry Donato*

*Mastering: Microphonic, LLC*
